

Castletown Town Commissioners

Vacancy for seasonal worker.

Castletown Town Commissioners have an immediate vacancy for a seasonal worker to assist in the upkeep of the Town during the busy summer period. It is envisaged this temporary role will finish at the end of September but this can be flexible to accommodate a start of term. The position will entail a wide range of practical manual tasks working alongside one of our regular staff. These tasks will vary from litter picking, sweeping, assisting in footpath maintenance and weeding right through to grass control and painting.

No particular skills are required due to supervision being given other than a willingness and attention to detail for the job being done. Some indication of ability to work unsupervised at times would be an advantage.

Hours of work are 37 per week. But can be flexible to suit the right candidate. Wherever possible we aim to offer a consistent working pattern, but we're also looking for some flexibility as it may be necessary to alter this pattern from time to time to suit the needs of the Town.

Closing date for applicants – Friday 18th July
